

MASTER BLUEPRINT & CONTENT DOCUMENTATION

INNVERSE Website Content Documentation

Complete block-by-block text documentation of the 16 Home Page sections, interactive tools, school curriculum matrix, lab packages, and institutional subpages.

Platform: INNVERSE School Ecosystem

Tagline: Where Curiosity Becomes Creation.

Target: Principals, STEM HODs & School Trustees

Standards: NEP-2020 & CBSE Code 417 Aligned

01 Global Header & Navigation Bar

Persistent across all pages to guide school directors and visitors smoothly.

Navigation Components & Links

- ✓ **Brand Logo:** Official circular tech crest (/images/innverse-official-logo.jpg) with bold wordmark **INNVERSE**.
- ✓ **Link 1 — Home (/):** Main landing page introducing the ecosystem, school labs, CircuitLab, and projects.
- ✓ **Link 2 — Programs & Labs (/programs):** Detailed breakdown of 6 core school STEM tracks and turnkey lab setup tiers.
- ✓ **Link 3 — Student Projects (/projects):** Comprehensive gallery of working student inventions across robotics, IoT, and AI.
- ✓ **Link 4 — CircuitLab (/circuitlab):** In-house browser-based Arduino & electronics simulator showcase.
- ✓ **Link 5 — About & Impact (/about):** Vision, 3 foundational pillars, school impact metrics, and downloadable curriculum guides.
- ✓ **Header Action Button:** Get In Touch ↗ (Direct jump to /contact).

02

Home Page /) Block-by-Block (16 High-Impact Sections)

BLOCK 1 Hero Section & 3D Interactive Canvas

Eyebrow Tag: AI • Robotics • Coding • IoT • Electronics

Main Heading: **BUILDING FUTURE-READY INNOVATORS.**

"We help schools move beyond theory into hands-on learning — where students explore, build, test, and create real-world solutions. Not activities. Systems."

Brand Motto: *Where Curiosity Becomes Creation.*

Calls to Action: Build Your Innovation Lab ↗ (Primary) | Lab Budget Calculator  (Secondary).

BLOCK 2

Key Impact Metrics & Statistics

Metric	Primary Label	Context / Institutional Verification
15+	Partner Schools	Building active STEM ecosystems across the region
5,000+	Students Trained	Hands-on project experience with real microcontrollers
500+	Projects Built	Physical working prototypes created and verified
98%	Satisfaction Rate	From school principals, trustees, and parents

BLOCK 3

Progressive Curriculum Roadmap (Grades 3 to 12)

Eyebrow:Grade-Wise Progression

Heading: A Progressive STEM & Innovation Pathway (Grades 3 to 12)

Designed in accordance with NEP-2020 and CBSE Skill Subject mandates. Students advance from visual algorithmic logic to autonomous robotics and AI.

Grades 3 – 5 (Level 1: Foundations)**Theme:** Observe & Play | 32 Hours / Year

- ✓ Scratch 3.0 visual block-based coding
- ✓ Simple machines, levers & pulleys
- ✓ Paper circuits & safe LED loops
- ✓ **Capstone:** Interactive Animated Storybook

Grades 6 – 8 (Level 2: Builders)**Theme:** Build & Measure | 48 Hours / Year

- ✓ Arduino UNO architecture & pinouts
- ✓ Sensors (LDR, Ultrasonic, DHT11)
- ✓ C++ coding & CircuitLab simulation
- ✓ **Capstone:** Autonomous Obstacle-Avoiding Rover

Grades 9 – 10 (Level 3: Innovators)**Theme:** Connect & Automate | 54 Hours / Year

- ✓ ESP32 Wi-Fi & Bluetooth IoT systems
- ✓ Cloud telemetry dashboards (Blynk)
- ✓ Dual motor kinematics & 3D CAD modeling
- ✓ **Capstone:** IoT Smart Greenhouse System

Grades 11 – 12 (Level 4: Future Engineers)**Theme:** Predict & Deploy | 60 Hours / Year

- ✓ Edge AI Vision with ESP32-CAM & OpenCV
- ✓ Neural networks for gesture/object recognition
- ✓ Drone aerodynamics & custom PCB design
- ✓ **Capstone:** AI Surveillance Turret & Quadcopter

BLOCK 4 In-House Product Spotlight: CircuitLab**Eyebrow:** Our In-House Product**Heading:** Built In-House. Used By Our Own Students.

Description: *"Meet CircuitLab — a browser-based interactive electronics and Arduino simulator built by INNVERSE. Students prototype circuits, write code, and simulate hardware behavior virtually before touching real components."*

- ✓ **14+ Real Hardware Components:** LDRs, gas sensors, servo motors, ultrasonics, DHT11, LCD 16x2, push buttons.
- ✓ **18 Ready-Made Guided Projects:** Students can explore immediately with zero setup.
- ✓ **Works Everywhere:** Zero installation on Chromebooks, tablets, mobile phones, and laptops.
- ✓ **Real-time C++ Code Execution:** Interactive sensor pinouts with live serial monitor logs.

Button: Try CircuitLab Live ↗ (Redirects to /circuitlab).

BLOCK 5 Partner School Spotlight & 3D Interactive Gallery

Eyebrow: Real Impact In Real Classrooms

Heading: Partner School Ecosystems & Innovation Labs

"INNOVATION STARTS WITH OBSERVATION: Observe • Identify • Think • Build"
Coding & Robotics teach students how to think logically, solve real-world challenges, and transform creative ideas into working physical systems.

Partner Institutions Highlighted: Global Wisdom International School (Dera Bassi) & Paragon Senior Secondary School (Sector-69, Mohali).

BLOCK 6 360° Innovation Lab Zones Architectural Explorer

Heading: Inside An INNVERSE Innovation Lab: 5 Core Functional Zones

Zone # & Name	Purpose & Workflow	Key Workstations & Equipment
01. Ideation & Design Hub	Brainstorming, sprint planning, and CAD 3D modeling	Modular collaboration desks, magnetic glass idea boards, CAD workstations, sprint wall
02. Electronics & Breadboard Station	Circuit assembly, sensor wiring, and hardware debugging	Anti-static ESD workmats, regulated 5V/12V DC bench power, digital multimeters, sensor organizers
03. Rapid Prototyping & 3D Print Bay	Turning digital 3D models into physical enclosures	Dual-extrusion 3D printers, eco-friendly PLA spools, precision drills, enclosed fume filtration
04. Robotics Arena & Testing Track	Autonomous testing, obstacle runs, drone flight	Regulation line-follower mats, modular maze walls, drone safety net enclosure, timing sensors
05. AI & Cloud IoT Server Rack	Cloud telemetry dashboards, edge AI inference	Local edge computing node, live telemetry classroom screen, Wi-Fi 6 IoT gateway hub

BLOCK 7

Student Projects Showcase

Filterable across: All Projects, Robotics, IoT & Smart Systems, Electronics, AI & Vision.

- ✓ **Smart Automatic Dustbin (IoT / Beginner):** Ultrasonic sensor + Servo motor automatic lid.
- ✓ **Gas Leakage Alarm System (Electronics / Intermediate):** MQ-2 sensor + Piezo buzzer alert.
- ✓ **Automatic Smart Street Light (Electronics / Beginner):** LDR light sensing dusk-to-dawn control.
- ✓ **Autonomous Line Follower Robot (Robotics / Intermediate):** Dual IR sensors + L298N motor driver.
- ✓ **Smart Agricultural Irrigation (IoT / Intermediate):** Soil moisture sensor + 5V water pump relay.
- ✓ **Bluetooth Home Automation (IoT / Advanced):** HC-05 module + Smartphone App AC control.
- ✓ **Obstacle Avoiding Rover (Robotics / Intermediate):** 180° servo sweeping ultrasonic sensor.
- ✓ **AI Camera Object Recognition (AI / Advanced):** ESP32-CAM neural network image classifier.

BLOCK 8

Modular Classroom Hardware Kits Showcase

INNVERSE RoboMaster 4WD

Chassis Kit

Anodized dual-deck aluminum chassis with 4× metal gear motors, quick-swap sensor brackets, and rechargeable Li-ion power shield.

INNVERSE Cloud IoT & Weather Station Kit

ESP32 dual-core Wi-Fi/BLE board, DHT22 sensor, MQ-135 air quality probe, OLED screen, and 4-channel isolated relay driver.

INNVERSE AI Vision & Edge Computing Pack

ESP32-CAM optical sensor, dual-axis pan/tilt tracking servos, pre-trained neural classification models, USB serial programmer.

INNVERSE SafeElectronics Prototyping Station

Regulated 5V/3.3V dual-rail breadboard power supply, 30+ snap-fit sensors, jumper organizers, multimeter, 100% low-voltage DC safe.

BLOCK 9

School Innovation Lab Packages

Package Tier	Capacity & Space	Hardware & Deliverables Included
Starter Lab Essential STEM setup	30 Students / Batch 300 - 500 sq ft	• 10× Arduino & Sensor Starter Kits • 5× Basic Robotics Kits • Grade 6–8 Curriculum • 2 Days Teacher Orientation • CircuitLab License
Advanced Innovation Lab ★ MOST POPULAR	45 Students / Batch 600 - 900 sq ft	• 15× Advanced Arduino & IoT Kits • 10× AI Vision Modules • 2× 3D Printers + Filament • Grade 6–10 Comprehensive Curriculum • 4 Days Faculty Masterclass • Showcase Event
Center of Excellence Lab Flagship research hub	60+ Students / Batch 1000+ sq ft	• Custom Modular Furniture • 20× Robotics & Drone Kits • 4× 3D Printers + Laser Cutter • AI Workstations • Year-Round Co-Teaching & Dedicated Mentors • Hackathon Hosting

BLOCK 10

Interactive School Budget & ROI Calculator

Allows school leaders to adjust student count (150–3,000+), target grade span, and lab tier to calculate:

- ✓ **Optimal Batch Capacity:** (30 to 60 students) at a 2:1 hands-on station ratio.
- ✓ **Active Hardware Kits Required:** Automatically calculated with buffer units.
- ✓ **Recommended Room Dimensions:** 350 to 1,000+ sq ft layout blueprints.
- ✓ **Weekly Period Scheduling:** Optimized for standard CBSE/ICSE timetables.
- ✓ **Faculty Training Hours:** 16 to 60+ hours of accredited masterclasses.
- ✓ **NEP–2020 Compliance Score:** 100% aligned with mandatory Coding & AI standards.

BLOCK 11 Global Competitions & Olympiads Mentorship Track

Mentorship programs for: **World Robot Olympiad (WRO)**, **FIRST LEGO League (FLL)**, **ATL Marathon (NITI Aayog)**, **CBSE National Science Exhibition**, and **Smart India Hackathon (Junior)**.

100% of partner school competition teams receive dedicated mentor coaching, chassis fabrication, and mock judging trials.

BLOCK 12 The 8-Step Signature Innovation Method

01. Observe → 02. Identify → 03. Understand → 04. Imagine → 05. Design → 06. Build → 07. Test → 08. Improve

"Innovators do not quit — innovators iterate and improve."

BLOCK 13 Zero-Risk Safety, Reliability & NEP Compliance

- ✓ **100% Kid-Safe Low Voltage:** All circuits operate on 5V/12V DC power. Zero dangerous AC exposure.
- ✓ **Short-Circuit & Reverse Polarity Protection:** Smart power distribution trips in 0.01 seconds on accidental miswiring.
- ✓ **48-Hour Rapid Replacement Guarantee:** Damaged sensors or controllers replaced within 48 hours.
- ✓ **NEP-2020 & NCF-SE 2023 Aligned:** Direct integration with CBSE Subject Code 417 (AI) and Coding standards.

BLOCK 14 Testimonials & Trust Validation

Verified endorsements from Dr. R. K. Sharma (Principal, Apex Global School, New Delhi), Sunita Verma (STEM Coordinator, Heritage Public School, Chandigarh), and Amitabh Sen (Head of Technology, Modern Academy, Mohali).

BLOCK 15 Frequently Answered Questions

Comprehensive answers categorized for **School Principals & Trustees** (space, budgets, admissions), **STEM Teachers** (no prior coding required, ready slides, grading rubrics), and **Parents** (active creation over screen time, career impact).

BLOCK 16 School Partnership & Enquiry Form

Direct coordinates: info@innverse.tech | +91 99151 14333 | WhatsApp Direct Chat.

Comprehensive form capturing school details and specific STEM requirements.

03 Global Floating Quick Action Bar

Floats on bottom-right after scrolling 300px: WhatsApp Chat, Instant School Proposal Request, and Phone Call button.

04 Subpages Content Breakdown

Programs & Services (/programs)

6 Core verticals (Lab Setup, AI/Robotics, IoT/Smart Systems, 3D Prototyping, Workshops, Teacher Training) + Lab comparison table.

About Us & Impact (/about)

Vision + 3 Pillars + Downloadable School Handbooks (Lab Setup Guide 2.4MB, Curriculum Roadmap 1.8MB, Teacher Manual 3.1MB).

CircuitLab Simulator (/circuitlab)

Dedicated portal with Live Simulator launcher, 14+ virtual components, and ready starter projects.

Student Projects (/projects) & Contact (/contact)

Full-screen interactive student build gallery and direct school partnership consultation booking.

05

Global Footer Component

Brand Tagline: *Building ecosystems, not one-off activities. We partner with forward-thinking schools to make hands-on innovation a weekly habit for students. Where Curiosity Becomes Creation.*
